CCC Proposal on Support to G-PSF

- Key project outputs need to clearly define in all documents (two studies, surveys of the WGs, and policy notes)
- Result framework should be correctly aligned. Quantitative indicators should be included.
- Equipment need to be justifiable based on necessity to achieve the expected results.

Meeting to be held at technical level to review in detail on budget plan, result framework, and other documents in order to be ready for submission for approval.

MAFF Proposal on SPS

- Project title should be written as “SPS Requirements of the Importing Countries”
- The SPS requirement may focus on some potential crops or agricultural products like pepper, rubber, rice.
- Capacity building on SPS should be included in the proposal.

MAFF to formulate full proposal with work plan and budget for further review in two weeks time.

Secretariat of National Committee for IP

- Secretariat of NCIPR will consult with ICT Master Plan on utilization of soft/hardware of ICT Master Plan on the website server.
- Budget for dissemination need to be further refined or removed for next phase of implementation, e.g. TV spot.
- It is important to ensure the utilization of available resources from WIPO, ICT Master Plan and other initiatives.

The project is good should review on budget plan and some activity.

Proposal from National Codex Committee

- WB will review the draft ToR of the strategic consultant to formulate the full proposal
- TDSP Procurement Plan has been included some position of consultants to write strategic proposals.
- WB will have special attention on the Codex issues since donors take careful position in development of laboratories in Cambodia.

WB to provide comment on one page proposal and the draft of consultant's ToR.

Proposal from MoC on Training and Research Facility

- WB expressed that trade training and research center is very interesting and important projects
- Future of Value Chain Information could be considered
- Mobilizing trade training resources into this project is very good component. Trade Curriculum developed under RSA project could be implemented through this center.
